# Heartache

Have you or a loved one ever have to face the tragedy of an unpaid hospital bill?

The purpose of Medicare and Medicaid is to alleviate that fear and prevent that tragedy from happening.

# Heartbreak

However, there is a current problem revolving around the two healthcare programs

# Introduction

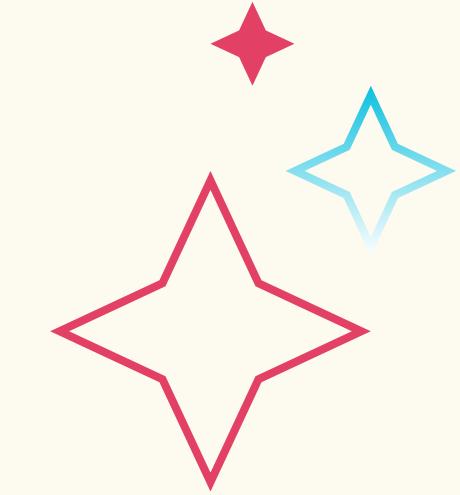

## Medicare

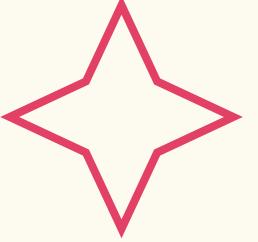

Federal healthcare program for the elderly and for some children with disabilities

## Medicaid

Joint federal and state program to assist low-income individuals and families

# The Problems

- Lack of communication
- Disadvantaged for those without health literacy
- Opting out of payments
- Worse Treatment

# The Problems (cont.)

Essentially, this is for a group of severely disadvantaged individuals that changes to the plan and the complexities make problems that these individuals can't easily solve

# What Can We Do?

## The Job

Be aware of the changes in political and economical climate for Medicaid and Medicare

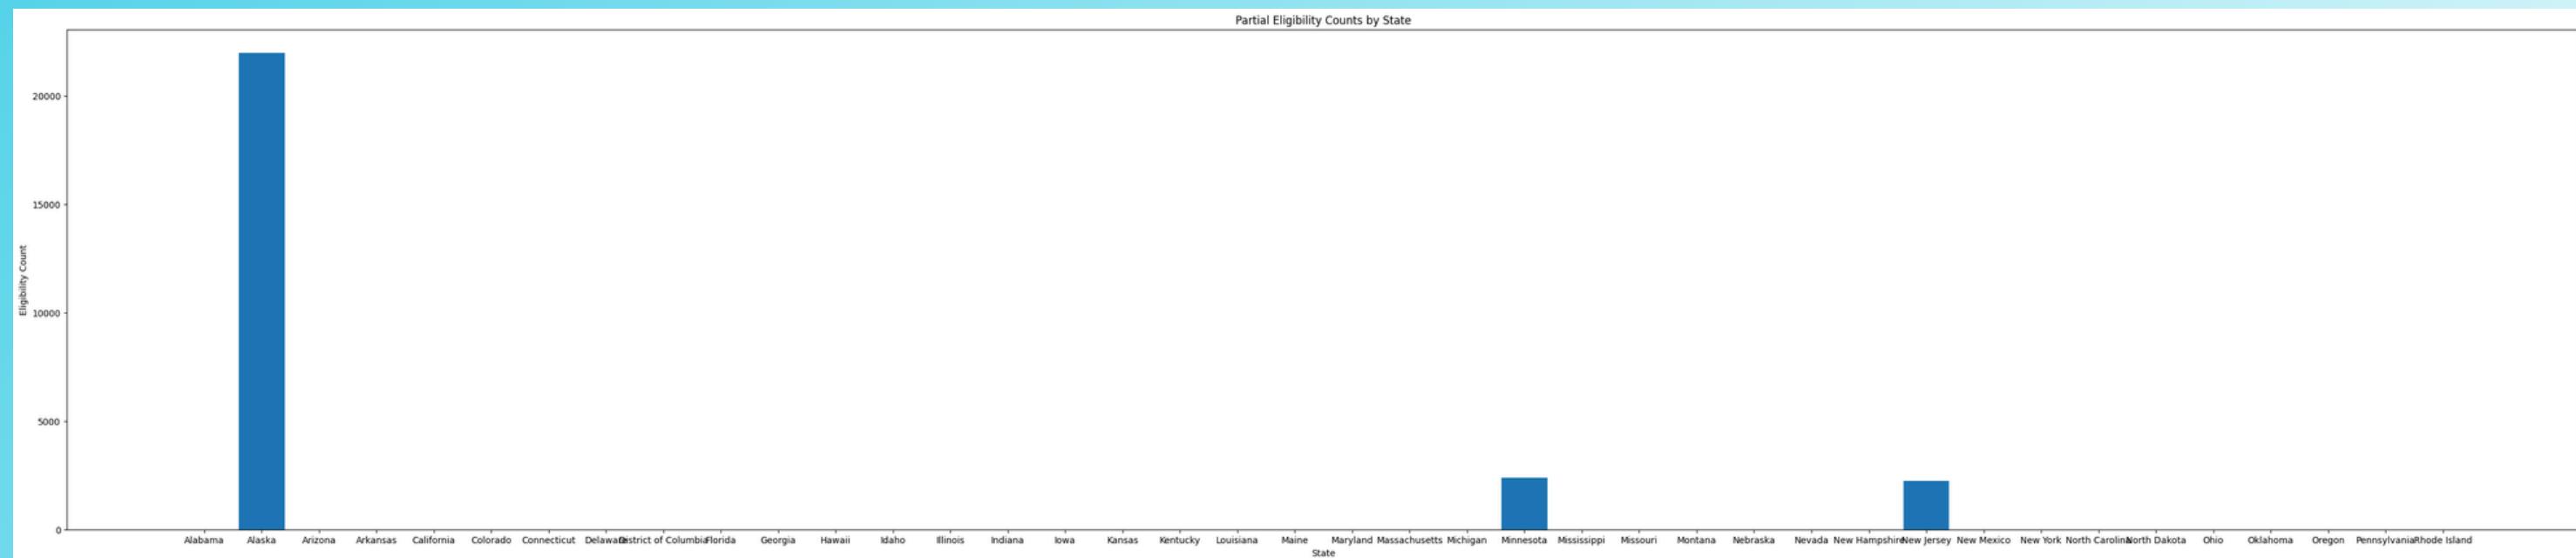

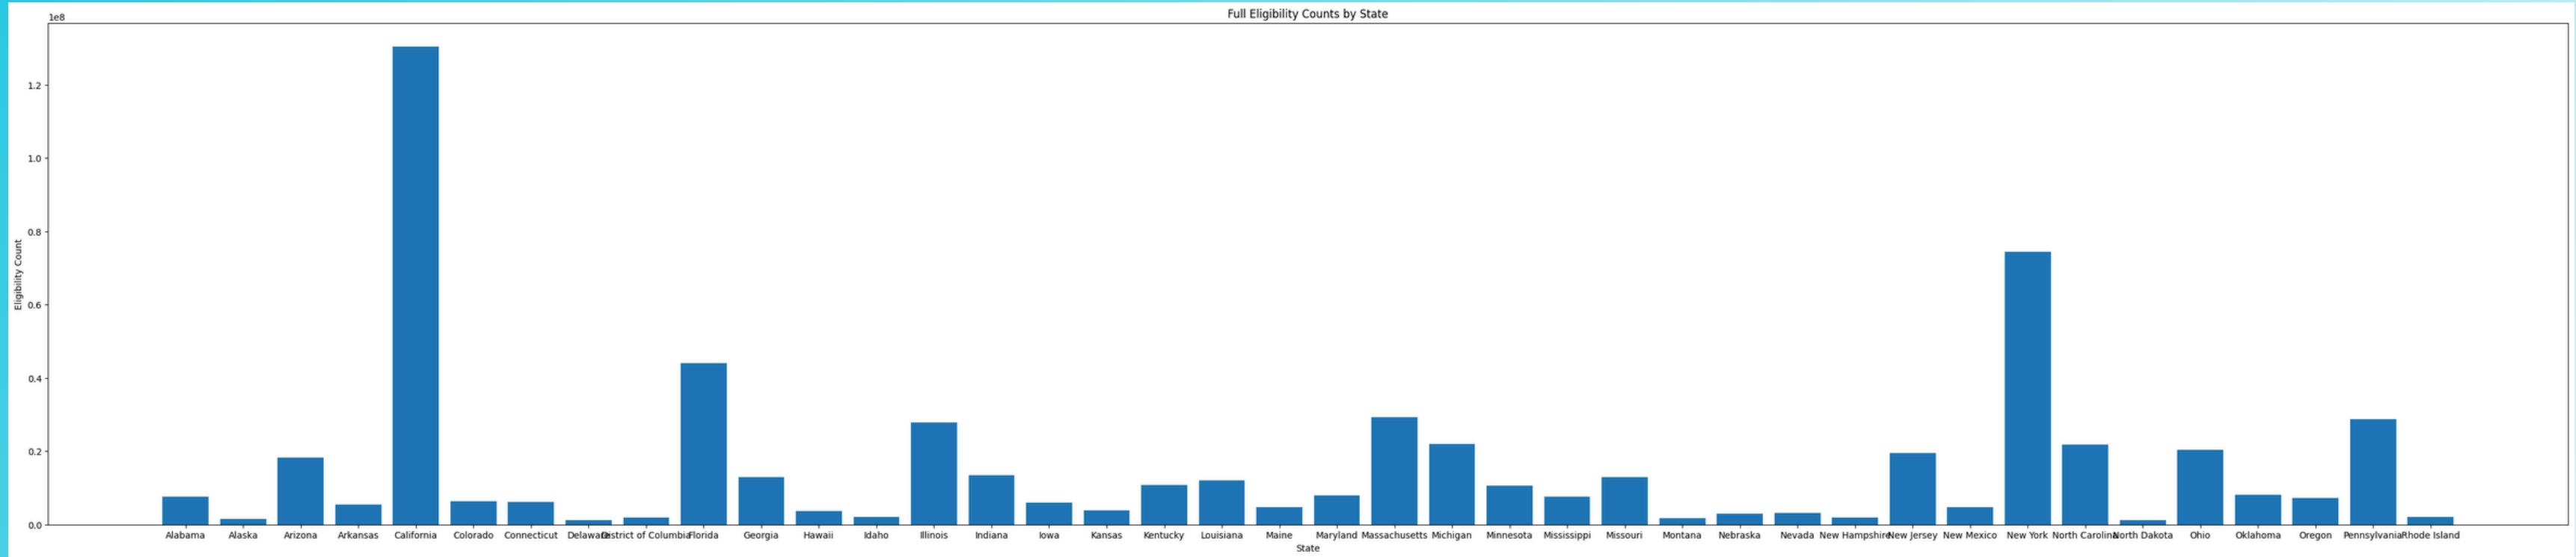

## Technical

Analyze datasets and articles revolving around health policy to know what the government is doing to address issues.

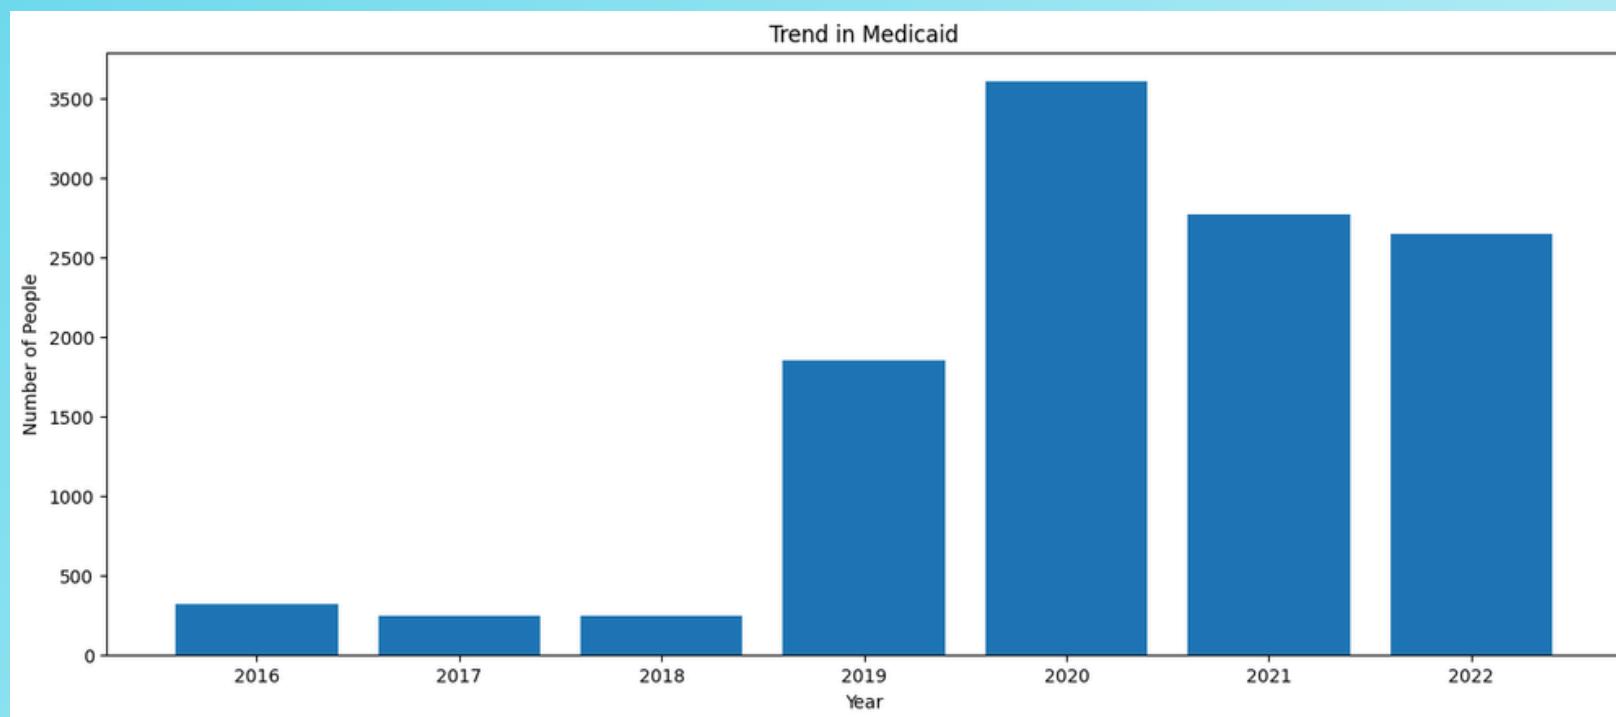

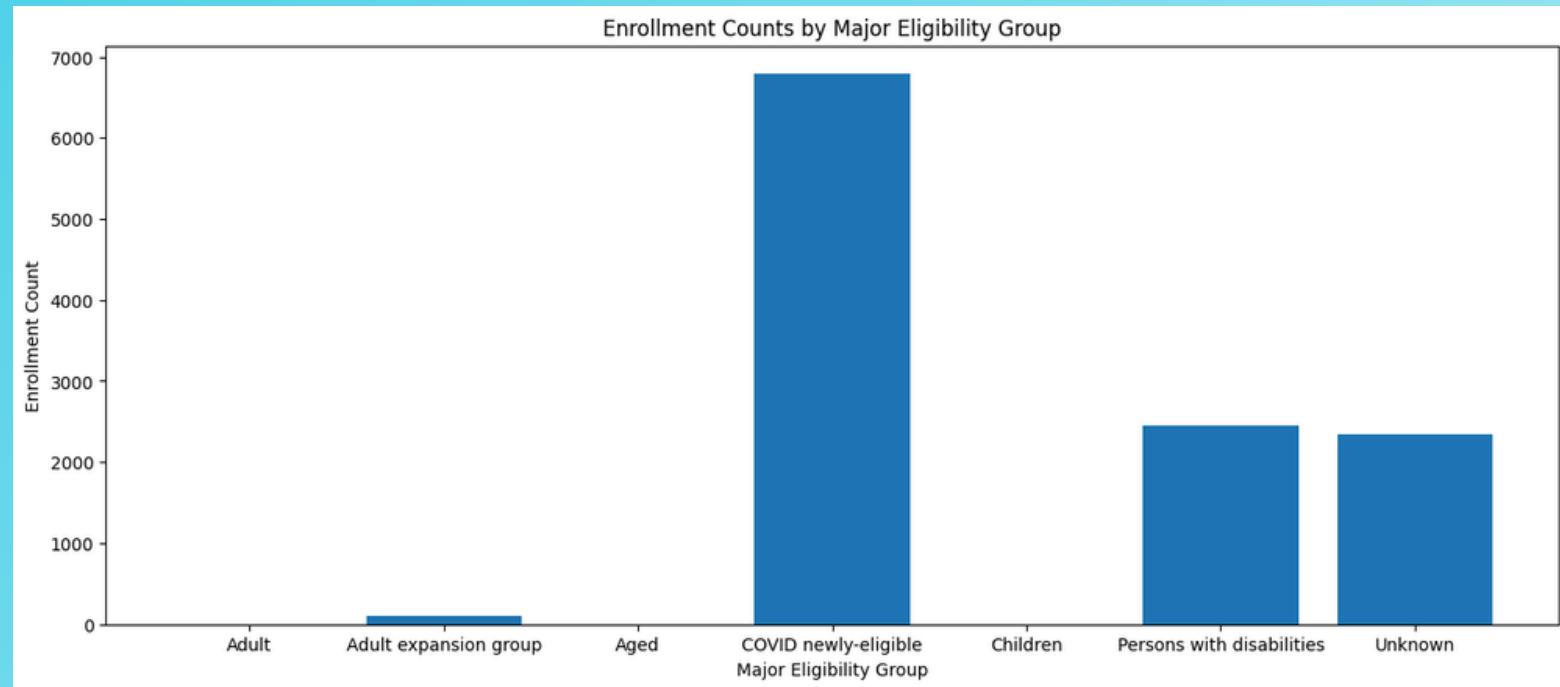

# Visuals

# Visuals

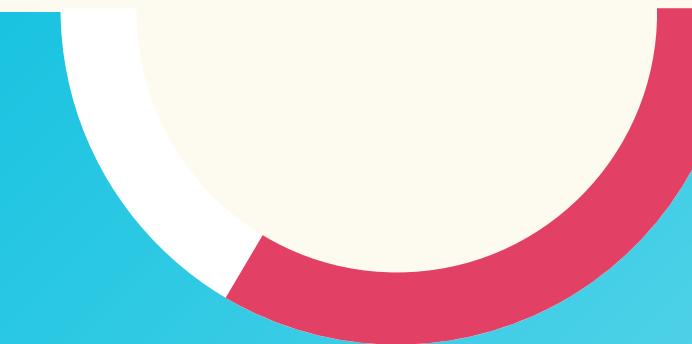

# Article Analysis

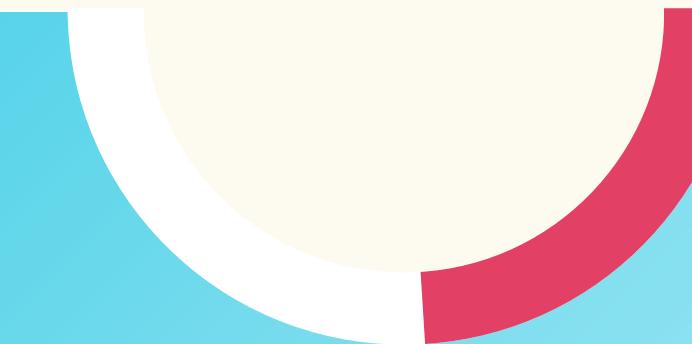

## Prison

Prisoners announced to be available to apply for Medicaid

## Rollback

There are cuts on the Medicaid plan primarily targeting children

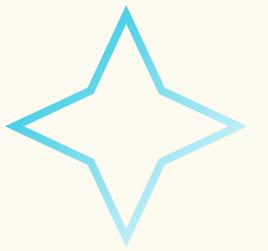

## Immigration

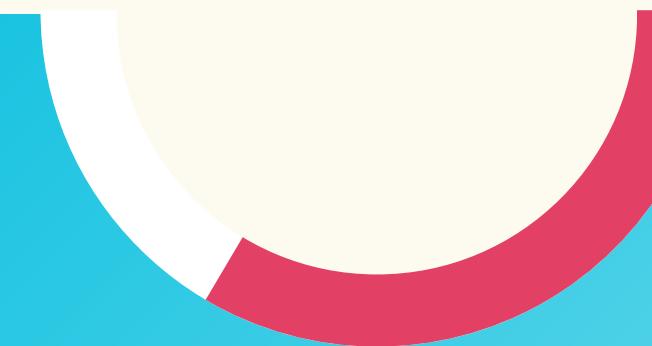

There will be a surge of people using Medicaid as there are upwards of 16,000 immigrants applying for it

# API Analysis

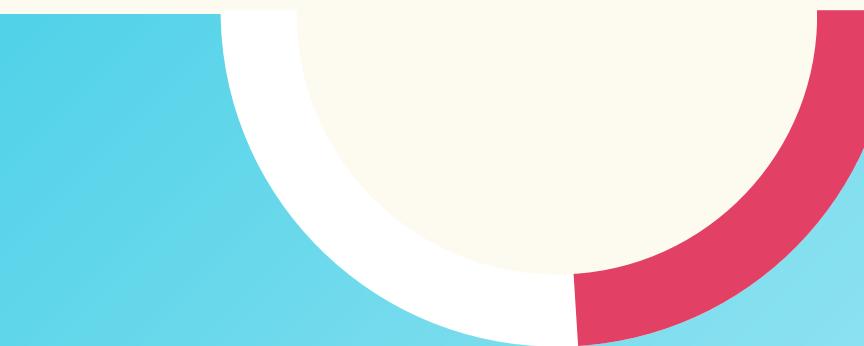

## Growth

While there were early reductions in number of people enrolling, legislation allowed more people to be eligible

## Potential Decline

Issues with being dually-eligible might dissuade people from sticking with Medicaid and only going for Medicare

## Groups

A large portion of eligible individuals are recently affected by COVID and are of “unknown category”
